Italian engineering at its finest the Avanti P180 has been gracing skies worldwide with her uniquely beautiful looks and equally impressive performance for years. This beautiful example's interior mirrors her external slickness with a white leather interior which was refitted in 2016. There's room to stretch out in the 73-inch-wide, 69-inch-tall cabin which beats any Turbo prop and competes with any Jet of a similar size.

Available immediately we have no doubt this beautiful aircraft will exceed the expectations of her next owner delivering them safely, quickly and in style to wherever they wish to go
