

SKYLANE

Cessna

BY TEXTRON AVIATION

A PERFECT TRANSITION

There is a moment when you go from simply having your pilot's certificate to being a pilot. It's a transition you feel in your gut, and once you've made a 230-hp climb in a CESSNA SKYLANE aircraft, there's no going back. A forgiving high-wing design and durable airframe provide impressive performance, powerful capability and low operating and acquisition costs. The proven *Cessna Skylane* piston is designed to make it easy to go fly and enjoy the journey.

Maximum Range

915 nm*

Maximum Cruise Speed

145 ktas

Maximum Occupants

4

Useful Load

1,110 lb

Takeoff Ground Roll

795 ft**

* Range is based on a ferry mission with one pilot at 55% power with IFR reserves.

** Takeoff ground roll is based on a departure at sea level, max takeoff weight and ISA conditions.

RESILIENT AIRFRAME

Both inside and out, from anti-corrosion treatment to strengthened glass, the *Skylane* piston is renowned worldwide for its durability.

NEXT-GENERATION AVIONICS

GARMIN G1000 NXi avionics with new GI 275 electronic standby provide a brand-new cockpit interface.

INCREASED AUTOMATION AND MORE PROTECTION FEATURES

Standard *Garmin* GFC 700 digital autopilot with Electronic Stability and Protection (ESP) and Underspeed Protection (USP).

CONSTANT-SPEED PROPELLER

Setting power is easy with a fully adjustable three-blade *MCCAULEY* propeller for optimal performance in all phases of flight.

HIGH-PERFORMANCE POWERPLANT

A proven 230-hp *LYCOMING* engine delivers smooth climbs and high cruise speeds for cross-country travel.

PAYLOAD PRODUCTIVITY

Handle heavy loads and more fuel with seating for four and a maximum useful load of 1,110 lb.

RUGGED LANDING GEAR

Heavy-duty landing gear is designed extra tough for peace of mind while operating on semi-prepared runways.

IMPROVED VISIBILITY

See more with reliable LED landing and recognition lights, which utilize pulse recognition technology and provide great illumination.

EASY ACCESS

Two doors and a sturdy high-wing design allow for convenient entry and loading for pilot and passengers, rain or shine.

BRING EXTRA BAGS

Easily access the generous aft baggage area through its own door, where you can quickly load up to 200 lb of luggage and gear.

RUNWAY FLEXIBILITY

Depart in less than 800 ft at maximum takeoff weight, and enjoy visiting more destinations with shorter runways.

COMFORT FOR CAPABILITY

Settle into the left seat of a *Cessna Skylane* piston, and you'll find deep-contoured Luxor 2 and Alcantara seats, ergonomically designed to deliver optimal comfort, even on the longest flights. Cabin air controls with enhanced ventilation sustain consistent cockpit temperature, while advanced soundproofing creates a quiet and comfortable environment.

Wraparound windows and a high-wing design allow both passengers and pilot to enjoy panoramic views of the landscape, no matter which seat they choose. The *Cessna Skylane* aircraft also keeps passengers comfortably charged with dual USB ports.

COMMAND THE NEXT GENERATION

The *Skylane* piston is powered by the latest technology in integrated cockpit avionics, the *Garmin G1000 NXi*. The new *Garmin GI 275* electronic standby lets you keep the classic look of your standby instruments while upgrading to a modern, sleek glass touchscreen display.

G1000 **NXi**

FEATURES AND OPTIONS

- + ADS-B Out and In
- + Wireless database and flight plan loading
- + Integrated VFR sectional charts
- + IFR high and low charts with night mode
- + Digital audio panel with Bluetooth
- + Vertical situation display
- + Selectable visual approaches
- + Simplified maintenance
- + Optional SurfaceWatch for greater situational awareness

SIMPLICITY AND PROTECTION

Garmin GFC 700 ESP and USP

GARMIN ELECTRONIC STABILITY AND PROTECTION (ESP) AND UNDERSPEED PROTECTION (USP)

The *Garmin GFC 700* autopilot features ESP and USP, providing pilots with an added measure of protection and correction. When a pilot exceeds user-selected pitch, roll or airspeed limitations, *Garmin* ESP and USP provide gentle movements on the flight controls to adjust the aircraft's pitch attitude or bank angle, adding a wide range of flight regimes.

SATELLITE CONNECTIVITY

The *Garmin CONNEXT* Satellite— Iridium services option allows fully integrated weather, satellite phone and text messaging during your flight. Its automatic position reporting feature also enables friends and family to track you during your flight. A *Garmin Connex* services subscription is required.

VFR Sectionals

IFR High and Low Charts

Vertical Situation Display

COM Frequency Decoding

FLY WITH CONFIDENCE WHERE FORM FOLLOWS FUNCTION

Elegant design is bold, simple and beautiful. Every engineered part has a purpose and is crafted with evolution and wisdom that only comes from a fleet with decades of operating experience. Whether you are purchasing your first aircraft or stepping up to enjoy added performance, the *Skylane* piston is the perfect tool to look at the world in a new, assured way.

EXPAND YOUR HORIZONS

With ergonomically designed seats wrapped in durable Luxor 2 and Alcantara, the *Skylane* aircraft offers a four-seat configuration, providing room to expand your aviation influence to your friends and colleagues.

PROVEN PERFORMANCE

Bring your friends with more than 1,100 lb of useful load and cruise at up to 145 ktas. With the ability to use short, unimproved runways, including dirt and gravel, the *Cessna Skylane* aircraft is a true high-performance aircraft with more than 900 nm of range. Experience class-leading capability backed by a proven track record.

SKYLANE SPECIFICATIONS

EXTERIOR

Wingspan	36 ft 0 in	10.97 m
Length	29 ft 0 in	8.84 m
Height	9 ft 4 in	2.84 m

INTERIOR

Cabin Height	49 in	1.23 m
Cabin Width	42 in	1.07 m
Cabin Length	11 ft 2 in	3.40 m

BAGGAGE CAPACITY

Weight	200 lb	90.72 kg
Volume	32 cu ft	0.91 cu m

MAX OCCUPANTS	4
---------------	---

WEIGHTS

Max Takeoff Weight	3,100 lb	1,406 kg
Empty Weight	2,000 lb	907 kg
Useful Load	1,110 lb	503 kg

POWERPLANT

Manufacturer	Lycoming	
Model	IO-540-AB1A5	
Power Output	230 hp	172 kW

PERFORMANCE*

Max Cruise Speed	145 ktas	269 km/h
Max Range	915 nm	1,695 km
Takeoff Ground Roll	795 ft	242 m
Max Climb Rate	924 fpm	282 mpm

* Performance data is based on standard conditions with zero wind. Field performance assumes a level, hard-surface, dry runway. Range is based on a ferry mission with one pilot at 55% power with IFR reserves.

YOUR CONNECTION TO OEM EXPERT SUPPORT

Maintaining a global fleet requires worldwide coordination and universal access to the knowledge of experienced parts and sales support representatives. With you as our focus, we provide efficient and personalized service for you and your *Skylane* aircraft with our global Textron Aviation Parts and Distribution support and sales teams. You can count on Textron Aviation to be by your side with superior parts availability, competitive pricing and a robust distribution system.

Success is a collection of parts. Choose them carefully.

HIGHLIGHTS FROM OUR PARTS NETWORK

- Textron Aviation has the world's largest parts distribution network in general aviation.
- A robust e-commerce platform to make parts purchasing quick and easy.
- A network of worldwide authorized service facilities to support your aircraft.
- Global product support teams standing by with technical support and advice.
- By using the OEM, you will receive parts employing the same standards and specifications used when your aircraft was built.

THE WORLD'S LEADER IN GENERAL AVIATION

We advance the market by leveraging the latest technology in our BEECHCRAFT and Cessna aircraft. These cornerstone brands account for more than half of all general aviation aircraft flying today.

We have delivered more than 250,000 aircraft over our 95 year history, exceeding 150 million turbine flight hours in over 170 countries. With more than 12,000 employees building new products and supporting you every step of the way, we continue to provide the industry's widest-ranging offerings and most capable service.

Our portfolio features CITATION aircraft, the world's best-selling business jets; KING AIR and CARAVAN aircraft, both class-leading turboprops; and advanced piston aircraft for transport and efficient pilot training.
