

READ INSTRUCTIONS BEFORE MAKING **ANY** ENTRIES

This is the official log book entry form on which airframe, propeller, and engine maintenance performed is to be recorded.

Since one form covers engine maintenance, propeller maintenance, and airframe maintenance be careful to record only the type of maintenance checked in the box. Writing airframe maintenance on a maintenance transaction report which also has engine or propeller maintenance on it would be like making an airframe or propeller entry in an engine log book. If engine or propeller maintenance is to be recorded, be sure to record their serial number.

- 1) Complete the entire Aircraft Identification and Status line including Engine Hours, Engine Cycles, and Propeller Hours.
- 2) Transaction Type - Enter the Type of Transaction listed in the center of the form.
- 3) Enter the Name of the Component or Inspection.
- 4) Enter the Position of the Item.
- 5) Installed Part Number - Enter the VENDOR Part Number.
- 6) Installed Serial Number - If the Installed Part has a Serial Number, enter the number.
- 7) Removal Reason - Enter the removal reason as listed in the center of the form. Wear removals identify components which are worn to limits, i.e... Brakes, Tires, etc. Scheduled removals identify components that have been removed because the recommended service life has been reached. Unscheduled removals are reserved for components which have failed. Convenience removals identify components which are changed prior to failure or changes for convenience such as loaner components being removed for replacement of original components.
- 8) Installed Part Status - Enter N - (New), R - (Rebuilt), or O - (Overhauled), or U - (Used).
- 9) TBO Enter if change desired.
- 10) TSO Installed Part - If new, rebuilt, or used, list the Time Since New and the Time Since Overhauled for Overhauled Parts.
- 11) Material Cost - Enter Cost.
- 12) Manhours - Enter Total Manhours.
- 13) Enter Remarks in the lower half of the form.
- 14) Enter Repair Facility, Certificated Repair Station Number, Work Performed By, and Sign Off at the Bottom. After form completion, include book and page number, tear off tab and remove blue input sheet.

NOTE: Input sheets should be returned to the CESCO Department in self-addressed CESCO envelopes.
